

Know more about the Food you eat...

FREE RANGE EGGS

All our eggs are Free Range. This means they come from chickens that are allowed to roam freely within a farmyard or a shed

FAIRTRADE

Fairtrade is about better prices, decent working conditions, local sustainability, and fair terms of trade for farmers and workers in the developing world.

We use Fairtrade sugar in **our cakes and puddings** and sell Fair Trade Orange and Apple Juice

All our meat is Red Tractor

What does this mean....

'The Red Tractor Farm Assurance scheme for beef production has standards that encompass food safety, hygiene, animal welfare and environmental protection. The basic welfare needs of cattle must not be compromised at any stage of their lives, and farmers must ensure that their farming practices do not damage the environment.'

'The Assurance Standards for poultry ensures that the birds have been well cared for with animal welfare being a priority; that the birds have been fed with animal feed that is safe and free from contamination and that they have been housed under good conditions and transported in safe and clean vehicles.'

All of these are grown locally...

Carrots
